

Cannabidiol (CBD) Import in Japan

Cannabidiol (CBD) is regulated in Japan by the Ministry of Health, Labor, and Welfare (MHLW).

First Shipment with COVUE

Note:

- Only a Japanese licensed Japanese company can provide Japan IOR services on behalf of the foreign seller.
- Whoever handles the Japan import application will control the product rights, regardless of the contractual agreement between the importer and the license holder.
- MHLW reserves the right to hold and test all CBD shipments at the port of entry. You may be subject to storage and testing fees.
- MHLW requires an import application and approval for every shipment before shipping. After completing the application, COVUE can replicate the application for future shipments.

Why Choose COVUE?

Our license permits our clients omni-channel access to the Japanese market. Our Sales & Marketing license umbrellas all sellers and resellers in Japan.

Our system allows us to quickly replicate applications for follow-up shipments.

Steps

- 1 Register your company under COVUE's license
- 2 Open an import application (notification) with the Ministry of Health, Labor, and Welfare (MHLW)
- 3 Receive approval for import
- 4 Create a shipping invoice from the COVUE IOR account
- 5 Ship to the final destination

Application Requirements:

- Ingredient list by percentage (in English)
- Product claims
- Manufacturing plant information
- Manufacturing flow process
- Source of ingredients (if requested)
